Case Study

OPTIMISED WASTE SOLUTIONS FOR CONSTRUCTION CONTRACTOR 1

The Testimonial

“We started working with Sharp Group in early 2022 and we have instantly noticed the difference in overall service.

As a large construction company we have lots of sites with different waste streams and requirements. Companies we have used in the past have not pushed us to segregate and only have taken our waste as general rubbish.

Sharp’s have pushed us to implement onsite solutions to both reduce our general waste output and increase our recycling. Alongside this we have seen a reduction in overall cost by segregating.

Overall we highly recommend Sharp Group both for the quality of service and the innovation they have provided to help us meet our internal sustainability goals.”

Site Logistics Manager—Construction

Service

100% on-time collection service success across 4 sites.

Diversion

Landfill diversion rate of 100% for all materials generated.

Optimisation

Full waste reports leading to a reduction of 22% in General Waste.
